## Chinese New Year 2016 >> Monkey Year

### 2016 >> FIRE Monkey Year

The Fire Monkey is the most active & aggressive of the Monkeys. Naturally dominant, s/he automatically gravitates towards leadership roles & is competitive in whatever s/he is doing. S/he constantly strives to be in control of whatever situation s/he is in, which can become overbearing

CNY 2016  
starts on

February 8, Monday

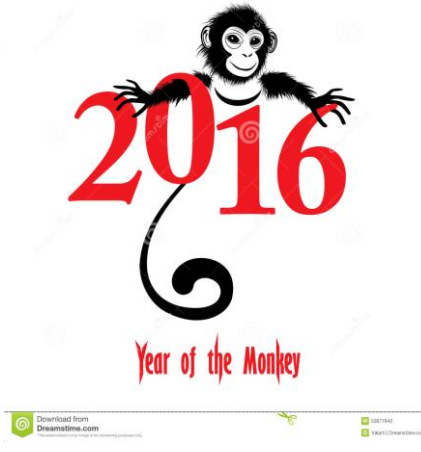

The main drive for whatever s/he embarks on is to head straight for the top & stay there, & when s/he is in charge her/his people skills kick in & s/he does nurture those under her/his charge who need it.

With Fire energy, this agile, impulsive Monkey often leaps where angels fear to tread. This reckless behavior sometimes turns out to not be to the Fire Monkey's advantage. However, s/he is very creative, dynamic, & has a particularly good talent at drawing people to her/him - this often helps her/him get out of scrapes.

In general: the Fire Monkey is flamboyant & charmingly friendly, & has a large social circle.
